

HIKMAT SHINWARI

Deskside Support Technician | IMAC & Break-Fix | LAN & Internetworking | Hardware Deployment

416-985-4592 • h.shinwari27@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Self-starting Deskside Support Technician with 2+ years of hands-on IMAC, break-fix, and deskside support experience — performing intermediate-to-advanced hardware roll-outs, refreshes, and deployment activities on PCs, laptops, printers, and POS devices in enterprise environments. Skilled in LAN and internetworking troubleshooting, zero-touch deployment support, 1st/2nd level Help Desk, and communicating with customers to diagnose problems, establish ETAs, and identify parts requirements. Cisco CCNA certified alongside MD-102 and AZ-104 Microsoft certifications, with strong independent work ethic, team lead capability, and outstanding people skills to deliver exceptional customer service with minimal supervision.

CORE COMPETENCIES

- **IMAC & Deploy.:** Hardware roll-outs, refreshes, zero-touch deployment — PCs, laptops, POS, printers
- **Break-Fix:** Intermediate-to-advanced hardware repair, diagnostics, component replacement
- **LAN & Network.:** Internetworking, TCP/IP, DNS, DHCP, VPN, switching — Cisco CCNA certified
- **Deskside Support:** 1st/2nd level Help Desk, customer diagnosis, ETA & parts coordination
- **Software:** Windows 10/11, MS Office 365, software installation, upgrades, troubleshooting
- **Endpoint Mgmt:** Microsoft Intune MDM, Autopilot, zero-touch provisioning, compliance policies
- **Scripting:** PowerShell, Azure CLI, ARM Templates, Bicep — automation & deployment
- **Documentation:** SOPs, knowledge base, incident logs, change management records
- **Soft Skills:** Self-starter, team lead capable, independent, customer-focused, organised

PROFESSIONAL EXPERIENCE

Help Desk Technician — Level 1 | *ProTech IT Solutions* | Abbottabad, Pakistan

Apr 2023 – Oct 2024

- Performed intermediate-to-advanced IMAC services for 50+ enterprise users — executing hardware roll-outs, refreshes, and deployment activities on PCs, laptops, printers, and peripheral devices; communicated with customers to diagnose problems, establish ETAs, and identify parts requirements, achieving 90%+ first-contact SLA resolution via ServiceNow.
- Delivered 1st/2nd level deskside support installing, troubleshooting, and resolving hardware, software, and network-related issues across 40+ workstations; performed break-fix repairs including RAM, drive, and screen replacements; assisted users post-deployment with issues arising from zero-touch overnight installations — ensuring zero disruption to the following business day.
- Performed basic-to-intermediate LAN and internetworking activities — troubleshooting TCP/IP, DNS, DHCP, switching, and VPN connectivity across multi-office environments; administered user accounts and software installations/upgrades across Windows environments; collaborated in a team lead capacity during network upgrade projects for 30+ employees.
- Developed PowerShell automation scripts reducing manual provisioning time by 35%; maintained SOPs, change management records, and knowledge base articles; demonstrated consistent ability to manage multiple concurrent tasks with minimal supervision while delivering exceptional customer service and clear technical communication.

TECHNICAL PROJECTS

Event-Driven Serverless Order Processing System (EDSOPS) — *George Brown College* — *Work Integrated Project* | 2025

- Built a fully serverless order management platform on Azure using Azure Functions (Python v2), Storage Queues, Table Storage, Static Web Apps, Azure Communication Services Email, Key Vault, and Application Insights — demonstrating end-to-end cloud infrastructure deployment, automation, security, and monitoring in a production-style environment.

Secure Multi-Site Enterprise Network Design — *Cisco Packet Tracer*

- Designed and simulated a secure multi-site enterprise network covering VLANs, inter-site routing, firewall ACLs, and switching — directly applicable to the LAN and internetworking responsibilities of this deskside role.

Windows Server & Azure Hybrid Identity Implementation

- Configured on-premises Active Directory integrated with Azure AD via Azure AD Connect — covering password sync, user lifecycle management, and Group Policy administration across a simulated enterprise domain.

Azure Infrastructure Deployment with ARM/Bicep Automation

- Automated end-to-end Azure infrastructure provisioning using ARM Templates and Bicep — deploying VMs, networking, storage, and security configurations, demonstrating zero-touch deployment discipline applicable to enterprise hardware roll-out workflows.

EDUCATION & CERTIFICATIONS

Postgraduate Certificate — Cloud Computing | George Brown College, Toronto, ON

2025

Bachelor of Computer Science | COMSATS University Islamabad, Pakistan

2023

Active Certifications: Cisco CCNA • AZ-104 Microsoft Azure Administrator • MD-102 Microsoft Endpoint Administrator • MS-900 Microsoft 365 Fundamentals
